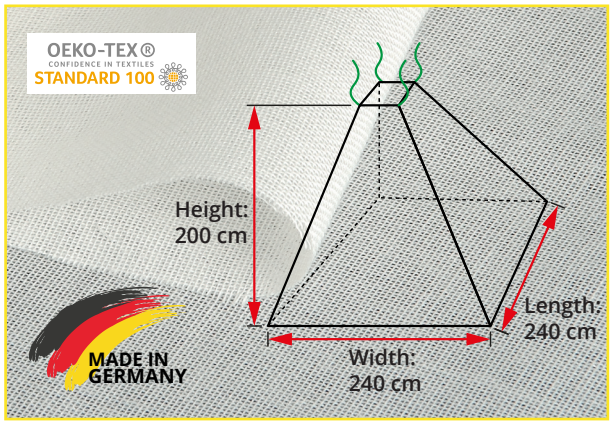
High frequency



- universal canopy for large-area shielding of high-frequency electromagnetic waves
- semi-transparent
- 100 % textile properties
- universal design (pyramid shape, very spacious)
- The Swiss Shield Naturell-BU universal bed canopy is made of Swiss Shield Naturell, a decorative, unbleached, high-frequency shielding cotton fabric with an absolutely textile character.

  The fabric has the usual textile properties of cotton.

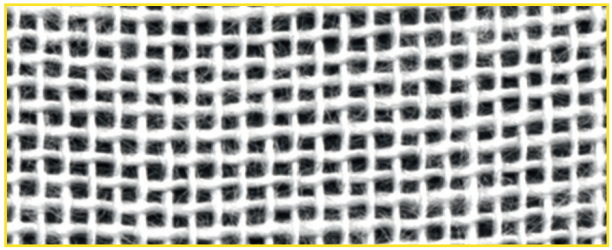
  Mounting is simple and variable in width and height.

  No electrical devices may be operated inside the canopy, please observe the necessary distances from lamps, hot light sources and walls (abrasion) to the fabric.

  No vapours or other chemical additives that pose a health risk.

  With canopy underlay SWSH-N-SN, this canopy shields low-frequency alternating electric fields even without earthing.

Order-No.: 101032
Short-Desc.: SWSH-N-BU



Scope of application

children's and sleeping area (single bed)

Scope of delivery:

- bed canopy incl. 4 x 2 hanging straps sewn on - length 100 cm, 4 x dowels and 4 x hooks
